## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, drawn to a Quartz crystal substrate classified in 117/943.

Group II, claim(s) 3 and 5-7, drawn to Hot press mold apparatus classified in 425/407.

Group III, claim(s) 8-9, drawn to method of lithographic exposure technique to the quartz crystal substrate classified in 430/949.

In response to applicant's claim amendment and remarks to the Non-Final Office Action issued 3/7/07, examiner is hereby requiring a restriction be made between claims "1", "3, 5-7", and "8-9", based on the amended changes and new method claims 8-9 added for consideration by the applicant to the examiner.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I pertains to a Quartz crystal substrate, whereas Group II which once incorporated a quartz crystal substrate in the body, specifically pertains to a pressing apparatus capable of working upon said object, and newly Group III claims pertains to a lithographic exposure technique performed in conjunction with the quartz crystal substrate. Neither Group I or Group III relates anymore to Group II's pressing apparatus, and furthermore Group I refers to a product and the method employed in manufacturing the product is given no weight see MPEP 2112 and 2113 regarding Product by Process limitations, including the process of using said substrate as defined by Group III.

A telephone call was made to Marshall Chick on 5/21/07 Restriction to one of the following inventions is required under 35 U.S.C. 121:  
to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to G. Nagesh Rao whose telephone number is (571) 272-2946. The examiner can normally be reached on 9AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (571)272-1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
